COVID-19 & Alcohol: Wisconsin’s Changing Landscape

“Restaurants and bars are just waking up from a long slumber but our livers have been working overtime during the pandemic.”  WaPo May 23, 2020
Alcohol-Related Harms are Increasing

- Emergency Department visits involving alcohol increased by 61.6%, costing $15.3 billion, from 2006-2014. Source: White et al., ACER, 2018
- From 1999-2016, annual deaths from liver cirrhosis increased by 62%; liver cancer deaths doubled. Source: Tapper & Parikh 2018
- Age-adjusted death rates for alcoholic liver disease up by 40.6% 1999-2017; increase higher among women and young people. Source: Woolf and Schoomaker, JAMA, 2019
Underage Drinking

- In every grade Wisconsin, more Wisconsin high school students drink than the US average.

- While Wisconsin & U.S. average rates of underage drinking have dropped, the gap between the percentage of youth in the US that have every consumed alcohol and Wisconsin is higher than it was in 2011.

- By 12th grade a greater percentage of girls drink alcohol than boys. Males 72%. Females 74%

Adult Binge Drinking

- Wisconsinites in every age group engaged in more binge drinking than the U.S. median for that age group.

- Wisconsinites of all races and ethnicities engaged in binge drinking at higher rates than the U.S. median for that group.

- Nearly 24% of Wisconsin adults (18+) self-report binge drinking in the past month, while the national estimated average is just 16.6% for the same time period.
Financial Cost to Wisconsin

Binge Drinking Cost to Wisconsin

≥ 4 drinks for a woman
≥ 5 drinks for a man
on a single occasion.

About $3.8 Billion annually

Excessive Drinking Costs Wisconsin

Underage drinking
binge/heavy drinking
drinking during pregnancy

About $6.8 Billion annually

Increases in Alcohol Consumption Appear to Remain After Traumatic Event

1. Financial difficulty, isolation, uncertainty about the future worsen patterns of alcohol use.

2. The affordability & availability of alcohol predict outcomes.

Rehm, J., Kilian, C. et al. Drugs and Alcohol, 2019
But what about the children?

• Most summer & organized sports have been cancelled.
• Parents working from home may not closely monitor teens & ‘tweens.
• A youth’s first experience with alcohol is most likely to include alcohol “pilfered” from family home or a friend’s family home.
Kids can’t drink what they can’t access

• Lock up your alcohol
• Ask your local coalition to help distribute “fridge locks”
• Include empty-nesters & those with very small children.
• Participate in the YRBS.
“Main Street Wisconsin is in Jeopardy of Changing.”

Significant number of licensees may close.

Some municipalities have ordinances requiring licenses to be surrendered is closed for 60-90 days.

A new owner or new tenant is a new applicant.
### By the Numbers…

Alcohol Policy Changes Proposed in Wisconsin

Immediate:
• Expanded licensed premises to accommodate social distancing.
• Effort to refill vacant commercial properties.

Long-term:
• Carry-out mixed drinks (TLW)
• Likely effort to eliminate/weaken 3-tier system.
• On-line/ phone sales of alcohol for home delivery (WILL).
“Main Street Wisconsin is in Jeopardy of Changing.”

Pete Madland, Wisconsin Tavern League on Wisconsin Eye.
Prepare to Resist Pressure to Refill Vacant Bars Quickly.

- Map existing licensees, identify problematic clusters.
- Document local alcohol-related issues:
  - Alcohol-related EMS calls – falls!
  - Alcohol-related PD calls for service
  - Alcohol-related domestic disturbances
  - Alcohol-related Emergency Dept or urgent care visits
- Solicit the support of remaining licensees. They may not want additional competition.
Today’s To-Do List:

1. Map local licensees
2. Monitor local alcohol licensing process.
3. Inventory Municipal Ordinances
   • Police resources used
   • Emergency physicians
   • Domestic violence shelters
5. Collect local stories about alcohol-related problems, harm to community, expense to the community.
OCTOBER 8, 2020
2020 Alcohol Policy Seminar Online
The only meeting dedicated to the policies and practices that prevent excessive drinking.
Just $75
