Professor, Department of Medicine  
Associate Director for Cancer Prevention & Control  
Medical College of Wisconsin*

*Dan Bullock  
Education Program Coordinator*

## Objectives

Identify health inequities among cancer survivors for sexual and gender minorities and list preventive cancer screening recommendations appropriate to their patient population.

Distinguish risk factors for more common types of cancer among SGM populations

Attendees will be able to provide resources better curated for SGM patients that can address unique needs such as physical/psychological impact of hormone treatments, sexual dysfunction post-treatment and confronting heteronormative bias (conscious and unconscious) in a healthcare environment.

Saturday, September 18, 2021

## 3rd Annual Cancer Disparities Virtual Symposium: Challenges in Cancer Care for Sexual & Gender Minorities

## Target Audience

Physicians, Physician Assistants, Nurse Practitioners, Registered Nurses and Allied Health Professionals

## Purpose

As the oncology specialty evolves at a rapid pace, educational conferences such as ours address the barriers in cancer prevention, treatment and survivorship care that confront SGM populations by keeping providers updated on the latest developments.

## Agenda

- |                    |   |
