

Radon Testing and Mitigation Project

Stockbridge Munsee

Wisconsin is home to 11 Federally-Recognized Tribes

Seats of Government: American Indian Nations in Wisconsin

Stockbridge Munsee

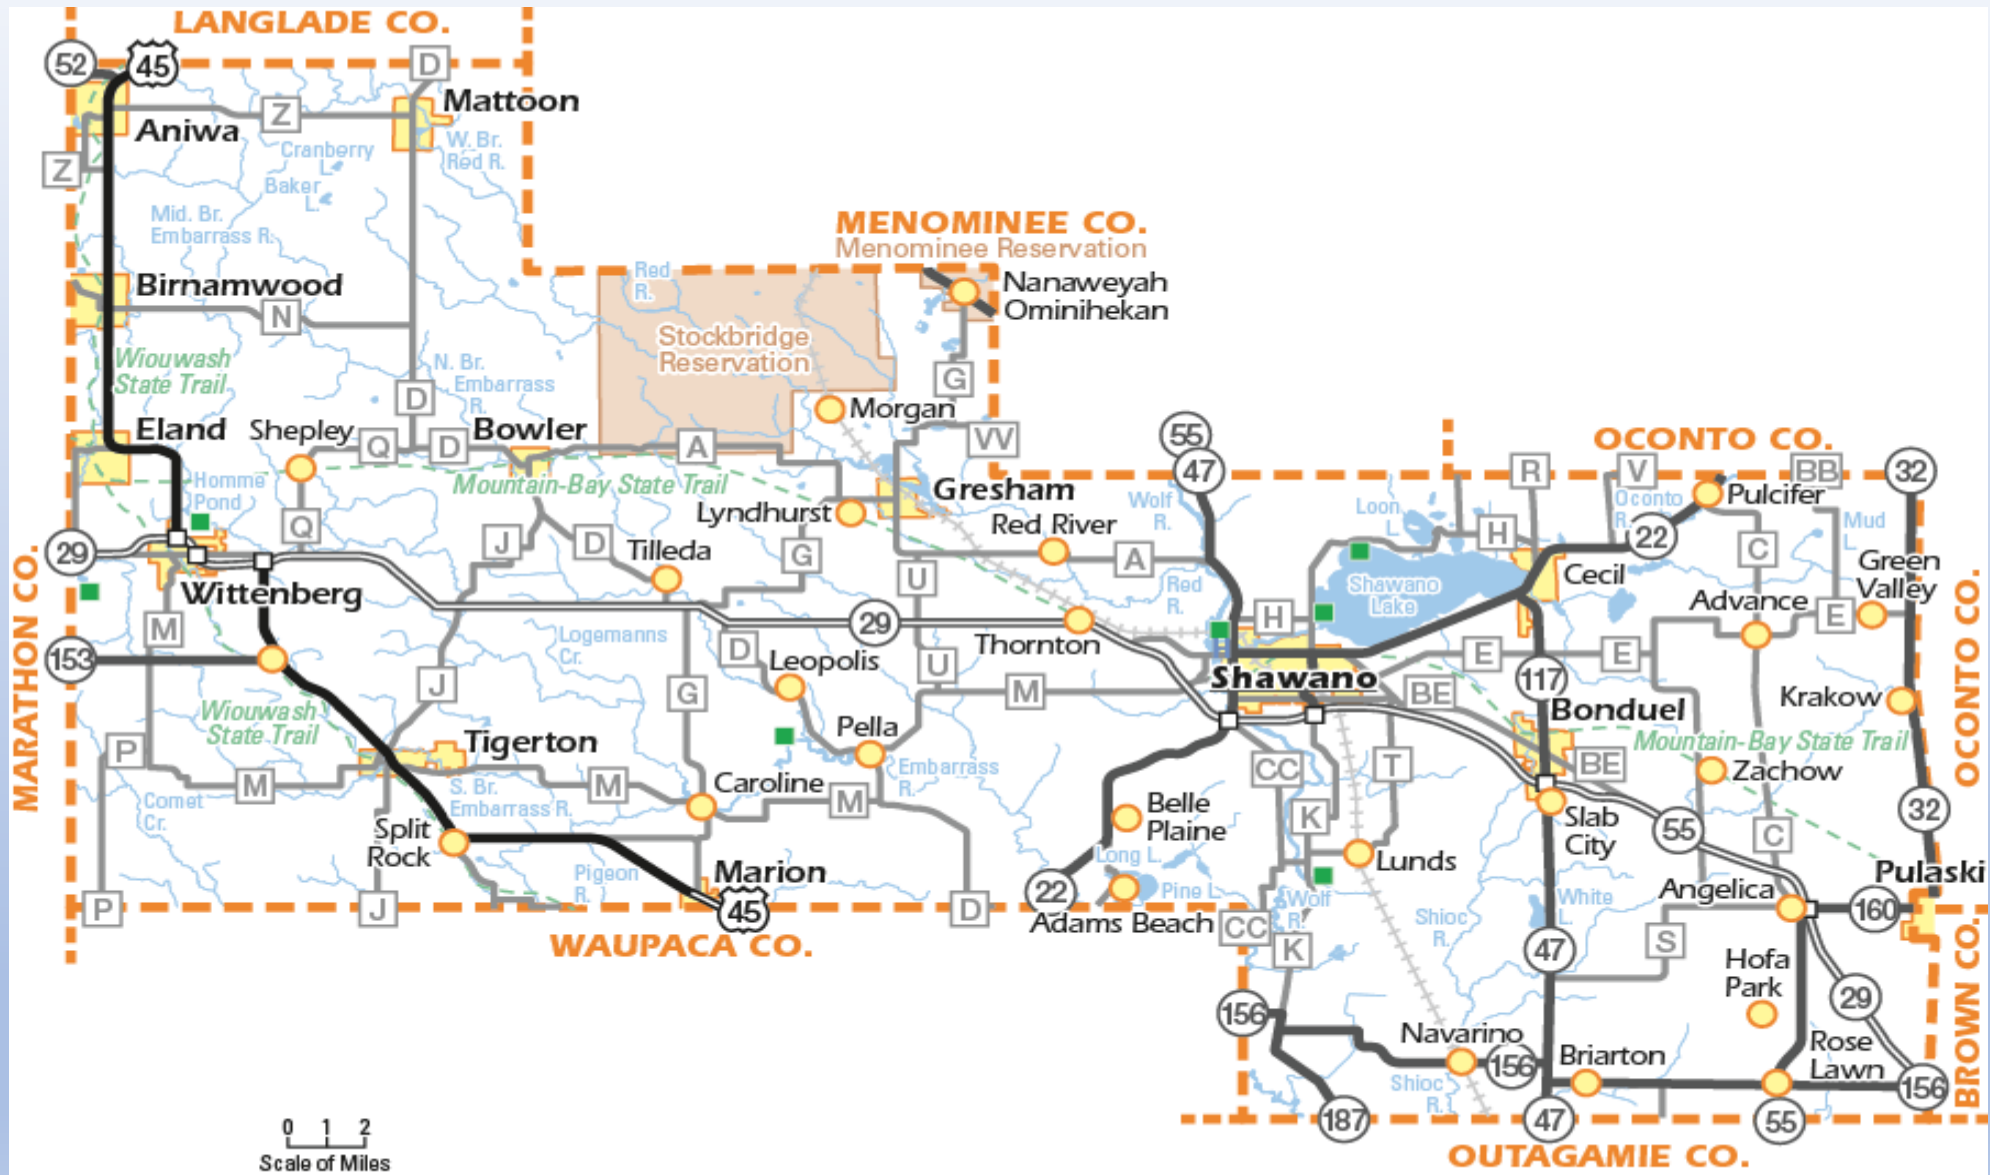

1,814 enrolled Tribal members

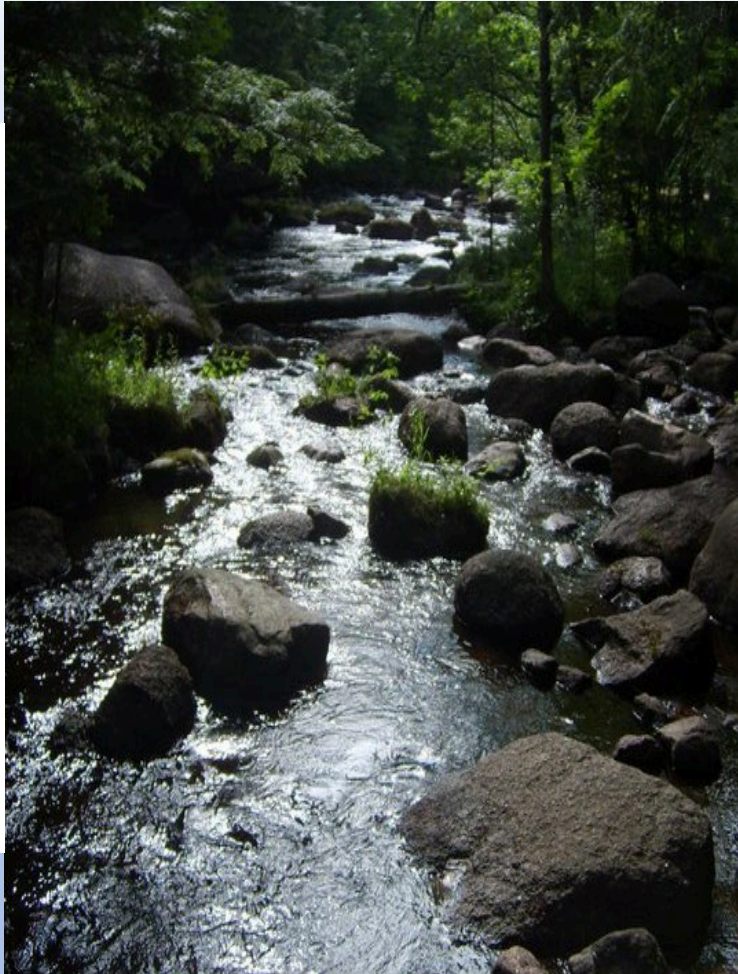

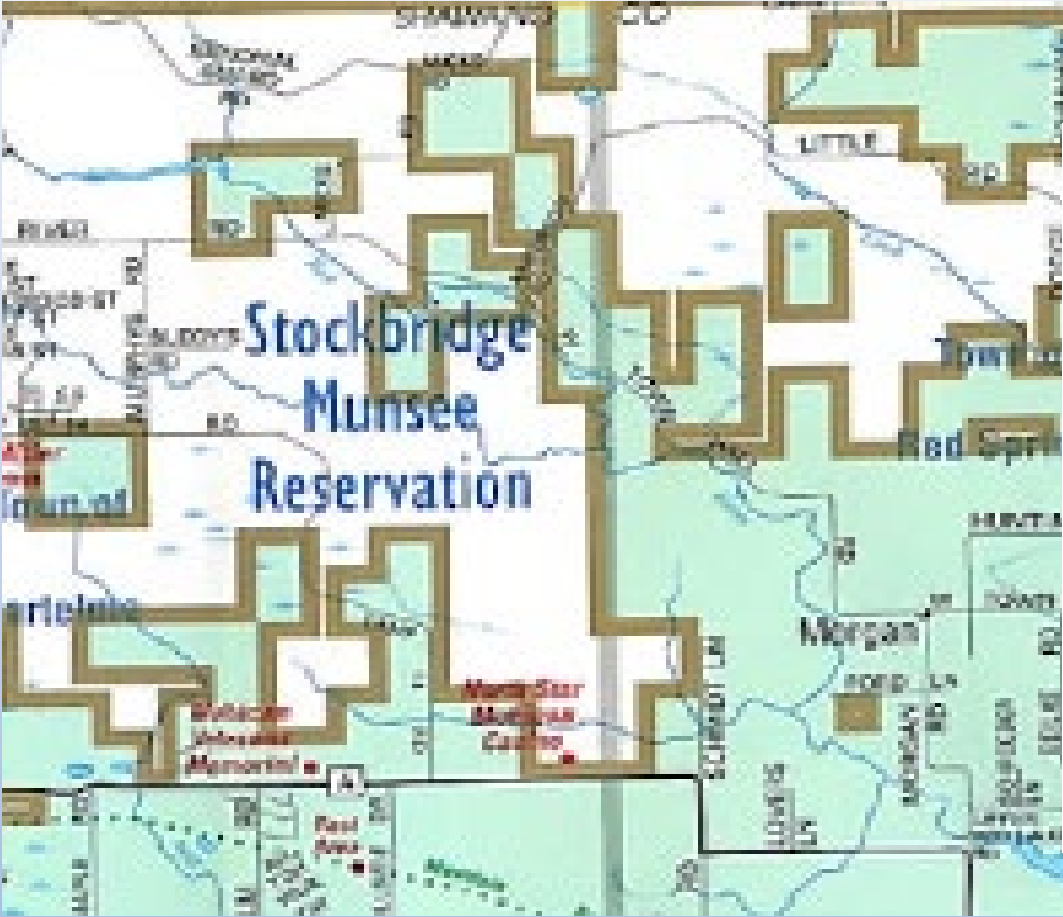

31% live on reservation of approx.
25,000 acres

766 Employees - largest employer in
Shawano County

2 Official languages - Mohican and
Munsee

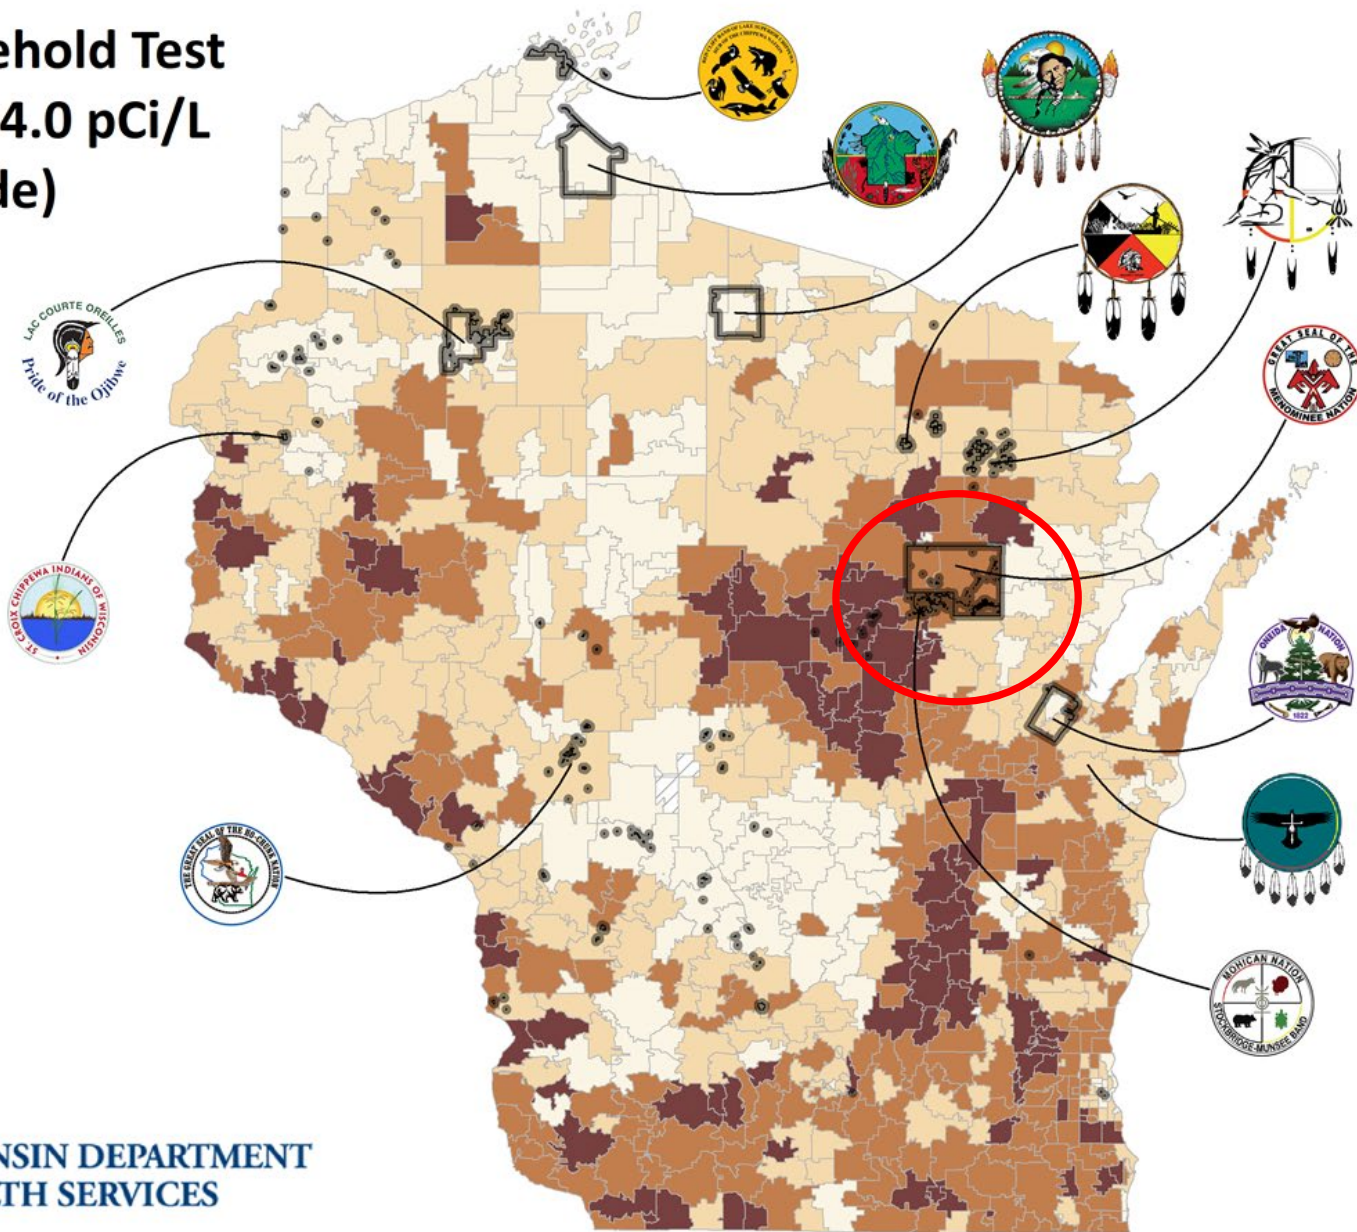

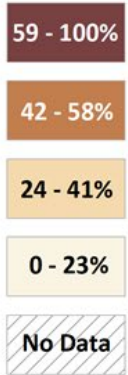

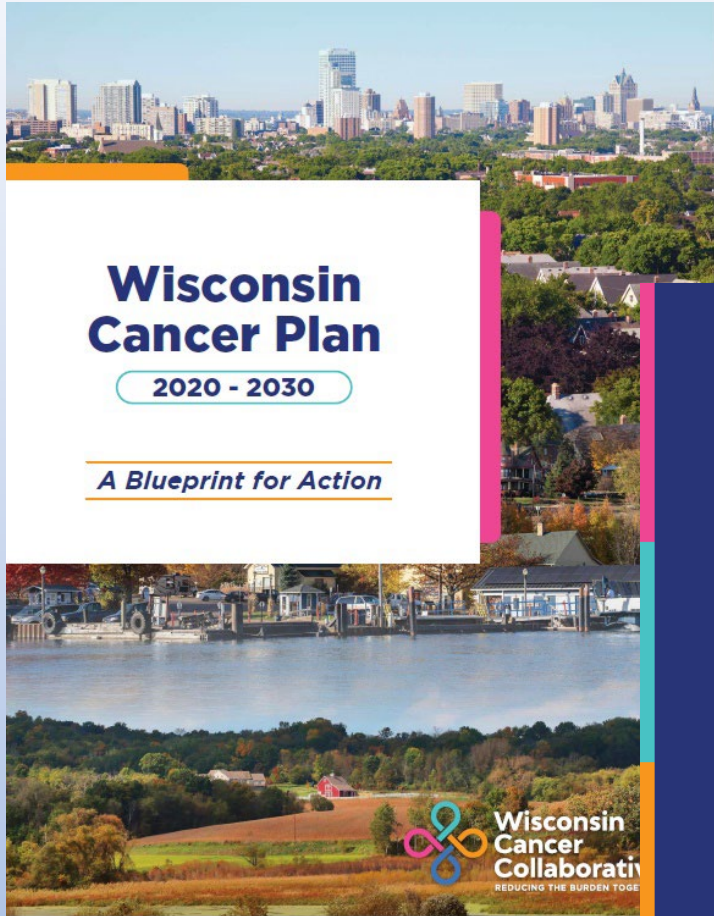

HOME

% of Household Test Results \geq 4.0 pCi/L (by Zip Code)

**Working together,
we will reduce the
burden of cancer
for everyone
in Wisconsin.**

Wisconsin Cancer Collaborative
370 WARF Building
610 Walnut Street
Madison, WI 53726
www.wicancer.org

Funding for the Wisconsin Cancer Collaborative is provided by the Centers for Disease Control and Prevention, and the Wisconsin Department of Health Services.

Priority 4

Increase cancer prevention vaccine completion.

Strategies:

- A** Increase access to cancer prevention vaccination services.
- B** Increase provider, parent, caregiver, and patient acceptance of cancer prevention vaccines.
- C** Reduce missed clinical opportunities to recommend and administer cancer prevention vaccines.

Priority 5

Decrease exposure to ultraviolet radiation.

Strategies:

- A** Increase opportunities for sun protection in outdoor settings.
- B** Increase awareness about skin cancer prevention.
- C** Decrease indoor tanning use.

Priority 6

Decrease exposure to radon.

Strategies:

- A** Increase awareness of the connection between radon and cancer risk.
- B** Increase the testing for and mitigation of radon in homes and other buildings.
- C** Increase the number of residential buildings built or remodeled using radon reducing methods.

Reader's note: To see detailed action steps and data measures for this chapter, please view the interactive Wisconsin Cancer Plan 2020-2030 available online at www.wicancer.org.

Radon Project Goals

Build awareness

Test all homes on reservation

Install mitigation systems where there is a need

Photo:
