

Improving Patient and Program Outcomes: The Game Changing Roles and Benefits of Physical Therapy in Cancer Care

*The American Cancer Society & Kohl's Healthy Families invite you
to attend a FREE webinar to learn about:*

- Who is a Cancer Survivor?
- How are needs different during the different phases of survivorship?
- What are the physical and mental benefits and potential downside to being physically active during treatment? After treatment?
- What programs and services are available to support survivors?

Leslie J. Waltke, PT, DPT
