DO YOU KNOW YOUR LEMONS?

Notice something different? Here's how we found them. Learn about the 12 symptoms of breast cancer when you scan the QR code or visit knowyourlemons.org/app

12 symptoms of breast cancer:

- SELF-CHECK: Examine your breasts for lumps, swelling, or changes in shape.
- DICTIONARY: Look up the words "lump" and "swelling" in a dictionary.
- WASHING: Wash your hands before and after touching your breasts.
- STANDING: Stand with your arms at your sides.
- HEARTS: Draw a heart shape on your chest.
- GOODY: Give yourself a thumbs up.

THREE TYPES OF LUMPS

milk tubes
They're the most common type of lump. They're usually soft and move around.

lymph nodes
They're small, round, and usually move around. They can be a sign of infection or cancer.

cancerous lump
They're usually hard, don't move around, and can be a sign of cancer.
