

Cancer Resources for Educational Settings

The Wisconsin Cancer Collaborative has compiled various resources tailored to educational staff looking to incorporate relevant cancer topics into their school environments.

Tobacco, Vaping, and Alcohol Prevention Resources

Vaping Prevention Curriculum for Various Grade Levels

- [WI Tobacco and Vaping Prevention Lessons \(DPI\)](#) - Free four-lesson curricula geared towards students in grades 3-5, 6-8, and 9-12 available for download.
- [Vaping: Know the Truth \(Truth Initiative\)](#) - Free digital lessons geared towards students in grades 8-12. This curriculum contains two newly-added lessons on cannabis use! [Learn more](#) about the program.
- [Catch My Breath \(UTHealth School of Medicine and Public Health\)](#) - Free, evidenced-based program for students in grades 5-12 with additional parent-tailored content. [Learn more](#) about the program.
- [Tobacco Education Resource Library Lesson Plans \(HHS\)](#) - Four different lesson plans for grades 6-12 covering important vaping topics, along with [additional classroom materials](#).
- [You and Me, Together Vape Free Curriculum \(Stanford REACH Lab\)](#) - Five-lesson curriculum for elementary, middle, and high school students. This curriculum includes educator crash courses about the topics, a parent letter, and pre- and post-surveys for evaluating student learning.

Infographics and Other Resources

- [Lung & Bronchus Cancer Infographic \(WCC\)](#) - In English and [Spanish](#).
- [Alcohol & Cancer Infographic \(WCC\)](#) - In English and [Spanish](#).
- [Tobacco Prevention Toolkit \(Stanford REACH Lab\)](#) - Toolkit containing additional lesson plans and resources. Stanford REACH Lab has a similar toolkit about [preventing cannabis use](#)!
- [Resource Library \(FACT\)](#) - Educational materials and activity guides about tobacco's impacts.
- [Small Talks \(WI Department of Health Services\)](#) - A [conversation guide](#) with alcohol prevention messaging geared towards all trusted adults that interact with young people. The Small Talks principles can also be [applied to other health topics](#), including cannabis, tobacco, and other drugs.

Youth-Driven and School-Based Organizations

- [FACT](#) - Wisconsin-based youth-driven advocacy and engagement group for students in grades 7-12.
- [Vape-Free Schools Initiative](#) - School-based campaign organized by the American Lung Association.

Additional Cancer Resources

Childhood Cancer Resources and Toolkits

- [A School's Guide for Children with Cancer \(Blood Cancer United\)](#) – Guide geared towards members of the school community, which provides resources and tips for supporting young people with cancer.
- [Schooling Children and Teens During Blood Cancer Treatment \(Blood Cancer United\)](#) - Library of resources with a booklet for parents of children with cancer, information about the Trish Greene Back to School Program, and a helpful guide about the [school environment](#) for students with cancer.
- [Going to School During and After Cancer Treatment \(American Cancer Society\)](#) - Resource covering tips for maintaining normalcy in the school environment for a student with cancer.
- [Educating the Child with Cancer \(Ruth I. Hoffman and American Childhood Cancer Organization\)](#) - An extensive overview of education topics relevant for children with cancer, their caregivers, and their educators, with a special focus on communication between trusted adults in the child's life.

Additional Cancer Prevention Infographics

- [HPV Vaccination Infographic \(WCC\)](#) – In English and [Spanish](#).
- [Sun Safety in Wisconsin Infographic \(WCC\)](#) – In English and [Spanish](#).

Additional Cancer Education Resources

- [Livestrong at School \(Livestrong\)](#) - Age-appropriate lessons for grades K-12 to help children understand the cancer journey.

At the Wisconsin Cancer Collaborative, we are working hard to achieve our [Wisconsin Cancer Plan 2020-2030](#) goals, in collaboration with our knowledgeable and passionate partners.

*If we're not already connected, we'd love to partner with you - just reach out!
