

# *Frankly Speaking About Cancer (FSAC):* Gynecologic Cancers Workshop

This workshop is created for people diagnosed with gynecologic cancers. The materials educate patients on the types of gynecologic cancers, potential treatments and side effects, clinical trials, and the emotional concerns of a gynecologic cancer diagnosis.

## **Key Workshop Objectives include:**

- Help patients impacted by gynecologic cancers navigate diagnosis, treatment, and survivorship.
- Build confidence, access resources, and connect with other patients facing similar challenges.

## **Featured speakers include:**

- Dr. Michele Pipp-Dahm, UW Health

**Date:** Thurs. Jan. 29, 2026

**Time:** 6- 7:30 pm

**Where:** Zoom

**For more details & registration:**
